- Decorative Coastal features a wire-brushed texture with a weathered appearance
- A full range of control options, including cordless Lift & Lock™, cordless lift and RemoteTilt motorization
- Heavy-duty slim-design headrail and crash-proof cordlock provide smooth, easy operation
- Innovative, magnetic valance attachment system is secure, easy to install, and conveniently adjustable
- Valance returns are glued and finished by hand for a perfected look and time-saving installation
- Limited Lifetime Warranty ensures customer satisfaction

Let's go window shopping.

WOOD BLINDS BY ALTA

| FEATURES | BENEFITS |
|--|--|
| SLAT SIZES | |
| 1 3/8", 2", 2 3/8" | Selections for virtually any size window; from the smaller 1 3/8" to the larger scale 2 3/8" that offers optimal view-through and a more dramatic look. |
| SLAT STYLES | |
| Smooth Finish | Choice of natural stains and neutral solids, including gray- and taupe-based tones. |
| Coastal | Beautiful collection features a wire-brushed texture with a stylish, weathered appearance. (2" only) |
| VALANCE PROGRAM | |
| Valance Styles | Four style choices and two decorative options, Keystone and tape valance, complement any decor, from traditional to sleek and contemporary to a bolder, larger profile. Spliced valance option up to 168". |
| A Glued Returns | Returns are glued and finished by hand for a perfected look and time-saving installation. |
| A Magnetic Valance Clips | Innovative, proprietary magnetic clips make installation quick, easy and secure while also allowing for custom height and projection adjustments. Installers love them! |
| CONTROL OPTIONS | |
| Tilt/Lift Cords | Superior tilting mechanism is designed for smooth, long-lasting operation. Slats tilt open or closed by pulling on the cord tilt. Lift cord features break-away stop ball. |
| Wand Tilt | Wand tilts the slats open or closed with a simple twist. Available on all slat sizes. Meets safety certification only when used with Cordless Lift & Lock. |
| Cordless Lift & Lock  | Press a button on the aluminum bottomrail to lift and lower the blind; release the button to lock blind into place. No lift cords enhances child safety. Available on 2" and 2 3/8" slat sizes. |
| Cordless Lift | Lifts and lowers blinds with a light push or pull on the bottomrail. Eliminates lift cords making them safer in homes with children. Now available on all slat sizes. |
| RemoteTilt | Battery-powered multi-channel radio frequency (RF) system tilts slats open and closed with the touch of a button. The RF remote control operates the blinds at great distance and the multi-channel version allows for independent blind operation. Combine with wall switches or timer for total convenience. Available with cordless lift and cord lift. |
| DESIGN OPTIONS | |
| Solid/Decorative Tapes | Over 20 selections to accentuate the blinds; decorative tapes are woven, not printed. |
| LightsOut Routeless | Slats have no route holes, which means reduced incoming light, increased privacy and better aesthetics. |
| 2- or 3-on-1 Headrail | Two or three blinds may be combined on one long headrail for flexible light control and beautiful unity. |
| HARDWARE AND INSTALLATION | |
| Low Profile Headrail | Strong enough to cover large windows, yet slim enough to reduce stack and allow more view. |
| A Metal Components | Cordlock, tilter and barrels inside the headrail are metal, not plastic, for better performance and longer life. |
| Ladders | Four strand ladders won't stretch, ensuring uniform slat alignment. |
| Tilter System | Wheeled cord tilter and hexagonal tilt rod enable smooth operation and tight slat closure. |
| Trapezoid Bottomrail | Provides contoured, modern look, improved slat tilting/rotation, and better closure. |

Certified Best for Kids when used with wand tilt
